

PolicyWise Grievance and Complaint Guide

Document Code: PW-GR-2026-01

Synthetic-data notice: This fictional document is for RAG development, testing, demonstrations, and training only. It is not a real insurance contract.

1. Complaint Registration

A policyholder may register a complaint regarding service, claim communication, policy administration, or other covered service concerns through the designated grievance channel.

2. Information to Provide

The complaint should include policy or claim reference details, contact information, a clear description of the concern, relevant dates, and supporting documents where available.

3. Acknowledgement

This synthetic process targets acknowledgement of a registered grievance within 3 working days.

4. Resolution Target

The target for providing a reasoned response is 14 calendar days from receipt of a complete grievance, unless additional investigation is reasonably required.

5. Escalation

If the complainant is dissatisfied with the first response, the matter may be escalated to the designated grievance officer for further review.

6. External Remedies

Where applicable, policyholders may have access to external ombudsman, regulator, consumer, or legal remedies. This synthetic guide does not provide legal advice.

7. Records

Complaint records should preserve the complaint date, category, owner, communications, supporting documents, status, and resolution outcome.

8. Privacy

Only information necessary to investigate the complaint should be collected and shared with authorized personnel.

9. Testing Note

The 3-working-day acknowledgement and 14-calendar-day response target are distinct facts for retrieval evaluation.
