

PolicyWise SecureHealth Plus - Sample Health Insurance Policy

Document Code: PW-HL-2026-01

Important: This is a fictional, synthetic document created only for software development, RAG testing, demonstrations, and training. It is not a real insurance contract.

1. Policy Overview

SecureHealth Plus provides hospitalization and selected medical expense coverage for the insured persons named in the policy schedule. The sample annual sum insured is INR 5,00,000 per insured person.

Coverage is subject to waiting periods, exclusions, deductibles, limits, and the terms described in this document.

2. Hospitalization Coverage

In-patient hospitalization expenses are covered when the insured is admitted to a recognized hospital for at least 24 consecutive hours, except for listed day-care procedures that do not require 24-hour admission.

Eligible expenses include room rent, nursing charges, surgeon fees, physician fees, operation theatre charges, medicines used during hospitalization, and diagnostic tests directly related to the covered hospitalization.

3. Waiting Periods

A general waiting period of 30 days applies from the policy start date for illnesses. This 30-day waiting period does not apply to hospitalization required solely because of an accident occurring after policy commencement.

Pre-existing diseases are covered only after 36 months of continuous coverage under this sample policy. Specified conditions such as hernia, cataract, and joint replacement have a 24-month waiting period unless treatment is required due to an accident.

4. Room Rent and Limits

Room rent is covered up to INR 5,000 per day for a standard hospital room. Intensive Care Unit charges are covered up to INR 10,000 per day.

Ambulance expenses are covered up to INR 2,500 per covered hospitalization.

5. Dental and Maternity

Routine dental treatment, cosmetic dental procedures, and dental cleaning are not covered. Dental treatment is covered only when medically necessary because of an accidental injury and forms part of an admissible claim.

Maternity expenses are excluded under the base sample policy.

6. Major Exclusions

The policy does not cover cosmetic treatment undertaken solely to improve appearance, treatment for intentional self-inflicted injury, non-medically necessary treatment, or experimental treatment not recognized by applicable medical standards.

Expenses arising solely from participation in professional racing or hazardous adventure activities are excluded unless an optional cover specifically states otherwise.

7. Claim Procedure

For planned hospitalization, the insured should request pre-authorization at least 48 hours before admission. For emergency hospitalization, the insurer should be informed within 24 hours of admission where reasonably possible.

For reimbursement claims, required documents should be submitted within 30 days after discharge. Typical documents include the claim form, discharge summary, final hospital bill, payment receipts, prescriptions, investigation reports, and identity details.
