

PolicyWise Health Optional Riders - Sample Guide

Document Code: PW-HR-2026-01

Synthetic-data notice: This fictional document is for RAG development, testing, demonstrations, and training only. It is not a real insurance contract.

1. Hospital Cash Rider

The hospital cash rider pays INR 2,000 per completed 24-hour hospitalization day for up to 20 days in a policy year when the underlying hospitalization qualifies.

2. Critical Illness Rider

The optional health critical-illness rider provides a lump-sum INR 5,00,000 benefit for covered diagnoses, subject to a 90-day waiting period and rider definitions.

3. OPD Rider

The outpatient rider reimburses eligible consultations and prescribed diagnostic tests up to INR 15,000 per policy year.

4. Dental OPD Rider

When specifically purchased, the dental OPD rider covers eligible routine dental consultations and basic procedures up to INR 5,000 per policy year after a 180-day waiting period.

5. Maternity Rider

The maternity rider provides eligible maternity expense coverage up to INR 75,000 after a 24-month waiting period, subject to rider conditions.

6. Rider Activation

A rider applies only when it is shown as active in the policy schedule and the required additional premium has been paid.

7. Coordination with Base Policy

Rider benefits supplement the base policy and do not automatically change unrelated base-policy limits or exclusions.

8. Claims

Rider claims require evidence relevant to the rider benefit in addition to standard claim documentation.

9. Testing Note

The base health policy excludes routine dental and maternity, while optional riders can add limited coverage. This deliberate contrast is useful for RAG evaluation.
