

PolicyWise TripSecure Optional Add-ons - Sample Guide

Document Code: PW-TA-2026-01

Synthetic-data notice: This fictional document is for RAG development, testing, demonstrations, and training only. It is not a real insurance contract.

1. Adventure Sports Add-on

When purchased, the adventure-sports add-on extends specified emergency medical coverage to listed recreational activities conducted under approved safety conditions. Professional competition remains excluded.

2. Enhanced Baggage

The enhanced baggage add-on increases the checked-baggage permanent-loss limit from INR 50,000 to INR 1,00,000.

3. Travel Delay

A travel-delay benefit of INR 5,000 becomes available when a covered common-carrier departure is delayed for more than 6 consecutive hours.

4. Missed Connection

Missed-connection expenses are covered up to INR 20,000 when a covered incoming common-carrier delay causes the insured to miss a confirmed onward connection.

5. Rental Car Excess

Rental-car excess charged for eligible accidental damage is covered up to INR 40,000 when the rental arrangement satisfies the add-on conditions.

6. Add-on Purchase

Only add-ons listed in the policy schedule are active. Purchasing the base TripSecure policy does not automatically activate optional benefits.

7. Documentation

Carrier delay certificates, baggage reports, booking confirmations, receipts, and rental agreements may be required depending on the benefit claimed.

8. Exclusions

Known disruptions announced before booking, avoidable missed connections, and professional sports remain excluded unless specifically covered.

9. Testing Note

The base policy uses a 12-hour baggage-delay threshold, while this guide introduces a separate 6-hour travel-delay benefit.
